

# TREMPRO® PU1000

High quality adhesive based on modified polyurethane chemistry

## Product Overview

TREMPRO® PU1000 has been developed for use in commercial construction including subfloor assembly, concrete, dimensional lumber, metal, and stone.

TREMPRO PU1000's flexibility allows for it to be used in an array of applications, including modular structures, semi-trailers, rail cars, RV's, cargo trailers, solar panels, storage tanks, and metal to metal. It can also be used in specialty OEM applications as a general assembly aid.

## Features & Benefits

- 3 times stronger than typical construction adhesives
- A single 24-ounce can does the job of 6 to 10 28-ounce tubes of other adhesives, reducing cost and waste
- 10-12 minute set time allowing for faster fabrication
- Low-temperature application
- Excellent adhesion to a wide range of substrates
- Collapsing foam adhesive, for rapid wetting of substrates, insures a controlled film for a high-shear bond
