

FIRESTOPPING SOLUTIONS

Committed to Protecting Life Safety.

Comprehensive solutions. Professional engineering. On-site assistance.

Once a fire has started, containing it to the area of origin allows occupants to find safe passage to emergency exits and first responders to get into the building to assist with evacuation before working to extinguish the fire. Buildings are constructed with fire-rated walls and floors to allow these compartments to be created, but joints between assemblies or penetrations in assemblies can negate the protection they were designed to provide. The assembly may remain intact, but the flames and deadly gasses simply pass through unsealed joints and penetrations to spread throughout the building.

For more than 25 years, Tremco Commercial Sealants & Waterproofing has been dedicated to making the built environment safer for occupants by providing complete building envelope protection solutions against fire, water, sound and air covering the foundation through the roof. We provide an innovative and economical firestop product line coupled with experienced sales and technical representatives who work with designers and contractors to ensure optimal solutions for specific applications in today's construction.

TREMstop® Sealants

- Acrylic Gun Grade
- Acrylic Spray
- Fyre-Sil Gun Grade
- Fyre-Sil Self-Leveling
- Smoke & Sound
- Smoke & Sound Spray

TREMstop® Intumescent

- IA +
- Moldable Putty
- Superstrip

TREMstop® Mortar / Devices

- Mortar
- Master Collar Roll
- FS Blanket

SUPERIOR SALES & TECHNICAL SUPPORT

- **Firestopping systems** – The TREMstop line of fire protection products features sealants, intumescent, field-fabricated devices and forming material with more than 400 independently tested fire-rated systems for through penetrations and joints.
- **Engineering judgments** – Our experience, from building codes through installation, enables engineering judgments for specific applications.
- **Sales support** – From assistance with submittal packages to general firestopping or installation training, Tremco provides the assistance and support you need.
- **On-site support** – On-site conditions may vary, presenting challenges on the job. Tremco’s technical field sales representatives can work with installers to provide an appropriate solution or immediate assistance is available by calling Technical Services at 1-866-209-2404.
