

# COMPREHENSIVE TRAFFIC COATING & JOINT SOLUTIONS

## Compatible, Tested Products for Complete Traffic Deck, Joint and Crack Repair

Willseal's best-in-class pre-compressed acrylic-impregnated, and compressible closed-cell foam seals — alongside Tremco's industry-leading traffic coating systems and sealants — provide comprehensive, compatible solutions to address any vehicular, pedestrian or specialty parking application.

For over 110 combined years, our products have been specified and installed on thousands of new construction and restoration projects worldwide.

Willseal and Tremco products are designed for maximum waterproofing, thermal, sound, and air-tightness — and feature superior durability, excellent +/- movement capabilities, and streamlined installation.

## THE WILLSEAL + TREMCO DIFFERENCE

### EXTREME DURABILITY

Our systems are designed for maximum durability, with a service life far surpassing that of other competing systems.

### PROVEN COMPATIBILITY

Our products are tested for compatibility and performance at our one-of-a-kind Sustainable Building Solutions Test Facility.

### FAST RETURN TO SERVICE

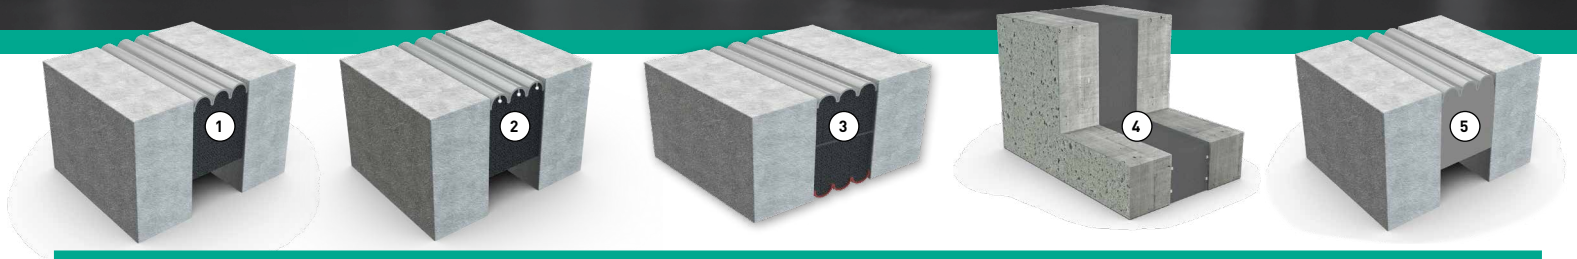

Quicker curing and fast installation means faster return to service — and less revenue lost to out-of-service parking spaces.

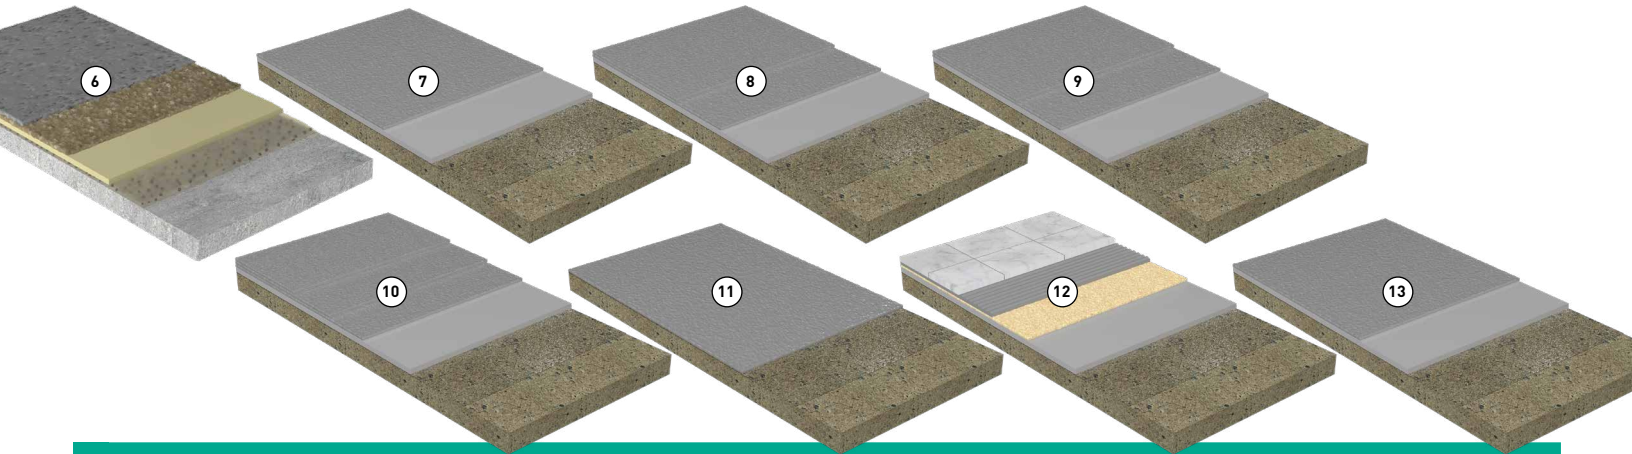

### ALL-INCLUSIVE WARRANTY

Tremco stands behind our systems with industry-leading, all-inclusive warranties, many with extended term options.

# A COMPATIBLE, TESTED FAMILY OF PRODUCTS

PRODUCT	DESCRIPTION
WILLSEAL® 250	Pre-compressed, self-expanding, open cell foam joint sealant with a traffic-grade silicone coating that is engineered to resist solvents and fuels.
WILLSEAL® 250R	Reinforced, pre-compressed, self-expanding, open cell foam joint sealant with a traffic-grade silicone coating, engineered to resist solvents and fuels.
WILLSEAL® FR-H	Unified fire-rated system with integral smoke barrier.
WILLSEAL® CORESEAL	Lightweight, dense, closed-cell foam for larger movement joints.
WILLSEAL® COLOR CORESEAL	Dense, closed cell foam for larger movement joints, with traffic-grade silicone skin on exposed face for resistance to gasoline and oil.

PRODUCT	DESCRIPTION
6 VULKEM® EWS TRAFFIC COATING WITH PUMA TECHNOLOGY	Cold-applied traffic deck coating system with tenacious adhesion and extreme abrasion resistance. Fast-curing to minimize downtime.
7 STANDARD PEDESTRIAN SYSTEM	Two-coat systems for applications that will receive light-to-medium pedestrian traffic, like balconies, mechanical rooms, walkways and terraces.
8 HEAVY-DUTY PEDESTRIAN SYSTEM	Three-coat systems for areas that will be exposed to steady foot traffic, such as stadiums, amenity decks and pedestrian bridges.
9 STANDARD VEHICULAR SYSTEM	Three-coat systems for areas that will be exposed to standard vehicular traffic.
10 HEAVY-DUTY VEHICULAR SYSTEM	Heavy-duty, four-coat systems for areas that will be subjected to steady vehicular traffic.
11 BALCONY SYSTEM	One-coat systems for areas that will receive light foot traffic such as balconies and mechanical rooms / work areas.
12 UNDER-TILE SYSTEM	Recommended two-coat system for underneath tiles, pavers and bonded overburden.
13 MECHANICAL ROOM SYSTEM	Two-coat systems for mechanical rooms / work areas.
